

BE PART OF SOMETHING HISTORIC!

In order for change to happen it takes people that are committed to a cause that is bigger than themselves. Our street team is exactly that! We are looking for people that desire to see change in a positive way for the city of Mound Bayou.

HOW IT WORKS:

We are looking for people to help us get the word out about the campaign, the mission and vision and what we intend to do. Our main goal is to canvas the community and let people know of the:

Nurses' Home, Tabernan Hospital
Mound Bayou, Mississippi

“Our campaign is dedicated to maintaining a positive message of what could be. We are looking forward to a great future, one that is filled with hope, pride and prosperity.” -Rev. Darryl Johnson

NEW VISION

Developing a comprehensive plan of action is top priority. The execution of any policy, program or procedure needs to flow from a comprehensive procedure where all parties both public and private are working together in conjunction with the community that they serve and are part of.

Strategy sessions to include the general public, public and private institutions will take place and the development of an established working plan will come forth.

The plan will then come before leadership and with wisdom and prayer be directed to implementation.

This comprehensive vision and plan will be based on a 4, 10 and 20 year outlook which meets the current goals and provides for a stable and prosperous future.

CITY DEVELOPMENT

Commerce and Industry

It is imperative that a plan to support the building and establishing of Commercial Businesses in within the city be implemented. The city thrives on a healthy commercial section. Businesses will be attracted to our downtown that will enhance tourism. A strip mall section will be supported closer to the highway area to support local needs. An aggressive campaign to attract industry into this area is important. We will work closely with the Mississippi Development Authority and other agencies to attract those industry that will bring wholesome jobs to the citizen of the area. This effort will be combined with other leaders from other cities of the area.

Because of time and effort of the Mound Bayou Movement, we have secured the interest of organizations, companies and entities to invest in the rebuilding of the city of Mound Bayou. We are excited to bring those partnerships to fruition through a collaborative effort of both private and public interest.

Development of Tourism Commission

Because of the need to develop tourism in the city, the support of a tourism commission and board is in place. This commission will also oversee the establishment of a Welcome Center. Establishment of Chamber of Commerce As the businesses grow, it is important to establish a Chamber of Commerce that will support the growth of the business sector of the city.

“A vision without any action is nothing more than a mirage”- Rev. Darryl Johnson

Residential

There is an immediate need for affordable housing in Mound Bayou for many families. The establishment of residential sections within the city will be under the overall comprehensive plan.

THE FUTURE

Education & Youth Development

The city will support the education of the youth of the city. The mayor will work closely with the school to provide support to after school initiatives as well as other school projects. Youth development is at the very top of our priorities.
